PRIVADO & CONFIDENCIAL

Rio De Janeiro, 27 de Julho 2008

Meu adorado Amor,

Eu não estou muito bem. Nem de saúde física e nem de equilíbrio emotivo. Aqui consigo pouco me relaxar de qualquer jeito mesmo. Eu estou trabalhando em muitas coisas onde fica todo complicado por causa do lugar a onde estou morando em condições pessimas sem ajuda genuina de ninguém. A gente me trata normal só porque eu me esforço com dificuldade de ser educada e de me comportar pra não incomodar ninguém.

Você deve saber que não gosto de me queixar de forma nenhuma porque sou reservada e tenho respeito pra a gente como regra 1o logica 2o pessoal e 3o natural.

Só que agora está ficando muito causativo de esperar que alguém faça alguma coisa como por exemplo: vir aqui me socorrer! Gilberto, estou com preocupação pra minha familia artistica que está muito precisando de mim. Eu não sou o tipo de deixar as coisas irresolvidas assim. E tinha começado 2 anos atrás certos projetos de alta qualidade e audacia que desculpa mas Prince está envolvido muito. Ele é minha vida e eu tenho muito sentimento pra ele como da minha adoreda Tanya Maria!

Que vai acontecer? Cad'è meu destino agora? Perdi um apartamento maravilha em Paris onde antecedentemente dos problemas que me condenaram

a essa situação, vivia uma vida muito linda, estava em favor, muito grande de criatividade em todos os setores (de arte audiovisual menos que a pintura, claro, que agora estou trabalhando porque é a única media na qual me posso expressar... Mas sinceramente não é isso que estou querendo ou precisando agora nessa época.

I'm workin' hard for nothing and to be perfectly honest, I'd created a musical art to die for in Paris which I'm not able to continue now for 2 years, and it's slowly but surely killin' me inside, I'm missing my music and activities sexual (dance) NOT sexual I assure you.

Gilberto, tenho 38 anos e estou gastando minha vida aqui dentro por causa do que estava em plena criação antes deste "accidente" let's call it like that.

Sorry, my love but I CAN'T talk to anyone else and I'm a bit lonely with myself not well you see? This life in here is so routine and irregular in the worst possible way for my (a) health and (b) carefreeness (innocence).

I don't really know how to behave in here but so far I've done well, except nobody has acknowledged it and that's not very nice.

I always show other people my appreciation for their qualities even when they are not apparent, but mine are apparent and nobody cares for them, or else they don't consider them, they take me alot for granted...

My beloved and beautiful Gil, I'm pleading you please to do something for me as I know you care but I promise I will be at your complete disposal and company whenever and however you wish for it because I love you but I can't explain this in a letter I'd like to see you.

I'm very pleased to hear on the radio you are doin' well and much in demand. By the way Talavera Bruce wants to invite you to some musical festival taking place in August, why don't you come? It's none of my business I know but I'd be happy for you just to see me at least and at most take me home with you with all my paintings, drawings a few excellent CDs and my personal Linda que te passo assegurar está linda com você.

Please Gil, I swear that I am worth considering if you ask any of the best "Latin Jazz" musicians in the world who featured on my radio show for instance: Anthony Jackson and Gato will have somethin' to say, I tell you... You have the position to do somethin': USE IT for cryin' out loud!!

If you don't believe it, who else is apart from me who can't even move anywhere and I'll remind you that when you were first elected I was very very happy for reasons I understand and I've promoted you well with my supportive words in a most elegant and diplomatic way because I love you, NOT 'cause I'm

tryin' to be clever, I'm really happy that you are the Ministro da Cultura and nobody else 'cause your Brasil is the BEST! Please talk to Tanya if you can 'cause she's about the only one you can trust and listen to her she fuckin' deserves it, and she loves you, I KNOW that.

Now (NAU) is the time to do something and I need help I swear, and sinceramente it will favour you don't you think?

Send Caetano my love and encourage Alvaro to carry on 'cause he's really doi'na a great job.

Sorry to tell you all this I hope I don't sound bossy but I'm on time 'when' I'm called and José Alberto El Canario knows that too.

But now I'm callin' you to either come and get me with no regrets I promise you or send someone worthwhile who will be able to 'cause it really is NECESSERALLY so!!!

Prince is an excellent husband but we'd also like to be together a little more often than this.

There are a few others who work with you I won't mention but I'm in love with them in a pretty way, don't worry I won't embarrass you, I'm more subtle than you think!

Also don't forget Julian is my big love and he needs my help urgently.

I love you mi pasión, siempre y con entera te amo mi amor, 'bess grandes Juliana & Eres
