Gilberto Gil.

Since yesterday I am like a puppet a shoulder very up and the other one completely down with the head down I could not accompany my husband to the hospital - neither make the shopping - Today I am suffering on my back very strongly it's difficult to be standing up and to sit down.

My husband must have a treatment and make exams. The doctor doesn't speak anymore of operation.

He has to go back to the hospital - and on the 30 I have to go to see the psychiatrist who thinks it can be a satellite too. He is the only person who thinks it's possible. I gave him so many details of the symptoms and the pains but that no treatment makes no effect.

The showbusiness movie international ~~reception~~ and the showbiz-messie arms in arms. As my husband ~~is~~ ^{doesn't} believe in the 3 advice and the ~~meeting with~~ ^{meeting with} the showbusiness of the movie. As my husband doesn't believe at all this story of the showbusiness movie and his meeting with the 3 advice the boat the jet when he will have chosen but Noone Nobody wants to believe of the satellite too much unbelievable ^{all} as unbelievable by my husband - Who is crazy or ignorant?

When noone dare to make serious investigations and

one love does it so it's better "to love a doubt and not
to be entirely sure of oneself of oneself ignorance -
Since the last TV show of the Best of the Festival of Cannes
the day after Jones as a puppet painful like Hell and
the future is coming it's unspoken as butchery and that
is coming within some days -

I could not go out suffering in puppet too much -
as I am suffering at the top of my back now -

Arms on Arms thinking I am crazy -

Yesterday night there was an old movie talking about ~~the~~
a man who ^{could not} touch a knife - So he was going to
see ~~the~~ Psychiatrist and the motivation was coming
when he was child and ~~the~~ her sister gave a doll to his
brother and the reason was he had no children yet -

Jones thinking that the mafia would kill me with a
revolver. If I know that "the psychotic killer is going to
put me in pieces out the nostril the pauprices, the mouth
the neck from the head, the middle of my body in from
from the neck to the pussy the ~~the~~ high of the legs.

I did not imagine it; it's happen when I wrote to the deputé
(political person) that I would be eliminated, they make me
touch my pauprices, my nostrils my neck and ~~so~~ ^{all around} with
the nail of my thumb - Several times they
made me these movements with my nail -

As they make me scratch my head 8 and 15 times like a robot
You know about the numbers I think, I suspect but may be
not - I can appear another time as a paranoid and however I am sure

of what I say, as sure as some people have tried to help me ⁽²⁾
I mean that guy who come from abroad and stayed a long
time. And don't forget when I was pulling the things in the
box for moonj I tried as the last day to go out
I could not -

When I moved in Croasne I was no more like a puppet we
could take a walk regularly could make stopping
without problems since I received the last July ^{in the middle}
a call where were spoke.

I had however always points painful on the skin of the head
and in the neck. Second treatment with the neurologist who
did nothing. So my psycliatra told me to make acupuncture.

I told him I was sure it would not make nothing.

And ~~for~~ the treatment made nothing as I said -

OR ~~acupressure~~ acupuncture cured me twice in ~~the old time~~
past. I made all I could.

The Society is violent and more advanced in destruction
that in the goodness for the human being - Especially the criminal association
^{very very rich -}

Sometimes I am not paranoiac when I understand that when

people ^{with} and this guy wanted to help. However my husband thought

I was paranoiac when I told him after ^{many} ~~long~~ years -

I am paranoiac when the people I ignore that's all.

Now I would thank you to read this letter I bore

not ~~more~~ very long times it's a question of day now. as the things

don't happen to the ~~people~~ ^{person} herself. the other who speaks is always

crazy and the slowness more would open Champagne thinking

they know however they ignore and they would be agree

With my husband - who sees ~~me~~ ^{me} I am suffering
he does not know how that a person can't even know for
another one it's the only thing and would stay thinking
~~the~~ how the doubt is so weak in the brains of the
people and the imagination so straight - but not
for the scientist of destruction - the last single was the

holocaust the shock how after other genocides it's the
satellite conducted ~~by~~ and paid by the very very
rich criminal organization. After I would be dead
no one would speak about it evidently -
who is ignorant my husband or me who is crazy
him or me? my family doesn't understand ~~neither~~

nothing about the satellite and what congress
this story of showbusiness movie - The congress at every level -
by the ignorance - because that's not the work of 3 actors

wanted to live with my husband I imagine ~~my~~ what is
shaking my family - And the criminal organization wants
since the beginning make thought to my husband and everybody
I am crazy - They ^{the} the criminals here made all the possible
I have met nobody to finish my life as they were decided

My husband what happened when I was at the door of the garden,
the man was walking in my direction and he clicks his little
machine in his pocket to open the door as he was still walking,
they made me a turn on myself to come back home -
as a Robot as they made so many times - On the afternoon
I made 3 turns on myself in front of my shoes - they can make
pains ~~any~~ ^{any} ~~every~~ ^{every} kind of disease and make a Robot of a
human being - But everybody don't mind - because they don't know

the technologies ^{sort's impossible} - I don't know the technologies and
my psychiatrist neither, but I feel all the effects
which can do this satellite ~~at~~ so many disease and
I show him precisely with details and explained him -
He he understood.)

Another time I have no eyes on my head no eyes in my back
and I don't see when I have heavy eyes shut.
I have no pain when I awake one or quarter of an hour or half
an hour after I get "tiraillements" in the face, on my
~~breast~~ foot with electricity then since two days its awful
to a ^{very} painful puppet the right shoulder up, the other down
and my back bent with a lot electricity, and the head down
What I can say would not change the future and the thought
of all the elite press ~~doctors~~ scientists and political people.

Thanking you to read me and wishing you a good
following.

Love -

I ~~can't~~ suppose that everybody knows the
power in every domains of the criminal organisation

I don't understand how the Elite can imagine they can
have such a machine of destruction. And if one person
in relation with such organisation told me it is here
it is because they knew I could not escape.
And if he was with a gun here just at my door it is because
they may be he thought I could ask him to save me and
all would have be finish since a long time.

Since two days I have a toothache the tooth they make
me touch very much with my nail of my ~~the~~ thumb as if
the material to collect off.

My husband is not in danger he does not touch to
nothing - and does not want to make anymore scenarios dialogues

how these bacteria ~~can~~ who knows so many
men want to steal mine when I am in danger of death
and what death! In fact the criminal organization has
understood that too. ~~They are~~ Such a shame they profit
of that monstrous satellite without knowing because
they think I am crazy - because if I am still in such a
state I would not go to Paris with him and the Sharbonov
movie would take him away - on the ^{big} boat the time
he choose - they even don't know him Everybody want
he leaves me. The President knows - If he knew
what my husband think of him.

These ~~just~~ how ignorance can help an awful crime
For my heart explorers knew me and wanted to save me
~~and~~ he has to go to Paris I think it's the ~~best~~ end

because I have never been in such a state
these actors want to write a paper for her
~~I am~~ if they put me in such disease if I can go with

him they can do anything to my brain in the parking
to my brain and take me for the butchery.
If he goes to Paris without me I would never see ~~them~~

again. When I think I was sad to leave him alone
when I could go out for nothing - And everybody of the
Sharbonov movie would go going to say to him that the
intelligence is ~~not~~ fiction. That makes me ~~happy~~

if I ~~could~~ ^{dearly} the man the last phone, I even don't know
when I do something they don't like - ~~It~~ ^{they} stop me ~~they~~
me and not going with help of other alone she did not want it
and he thinks I never do something to meet him.

For the people who have tried to help with this explorers, I thought
they had no miraculous way of saving me. but they don't just
know nothing about their satellite. I could not understand how they could
do that. Ignoring technology maybe another one they could have found
everything I could I have tried. For make me understand that was ~~not~~

Plan about this satellite but I follow of trying because
I was thinking that the day with a revolver was quick.
I have never know a favour of a animal organization
~~to have~~ just a stick duty of mine a confusion who put me
to down about the young friend was gone and I could not speak
to him -

I think it would be the best letter - the starbush is ~~start~~ Sportful
without knowing it is ready - do take him away.
When I think that the music must have imagination and try
to see and hear it atmosphere de saiete and hear
carefully the people -

I can't say nothing more than I don't know
what they would do to my brain before calling me into
pieces.
