

Personal

Mr Gilberto Gil

Ministry of Arts

BRASILIA -

BRESIL

Giulietta Gil,

It's a question of days - The terrifying end of mine.

I even don't know if this letter would be posted -

~~then~~ The president put his index on his right eye and his
left nostril. And a singer said ^{all} it was finished & "my husband would go out" And ~~at~~ I am sure they would

just myself dulcainotesarkante puppet like since Tuesday until

yesterday - I could only lay down on my bed on ^{my} belly -
this morning I got up early.

As I told you I had to see the psychiatrist

{ I could not stand up
neither sit down -
I didn't refuse nothing

I really didn't know if I could go to see him -

But if the top of my back was weak I could stand up - when
I was sitting in front of him to pain at all - then we had to go down to
to find a prescription He turn his back to me my back become painful
then I return back ^{to} my doctor the pain stopped. It started again

a little while he was writing the prescription - the strongest pills
don't exist anymore he said to me - He gave me an appointment

for the 10th, when my husband asked me when I would have to
come back he told me he had an appartement at the hospital -

So I have to ^{back} go upstairs to change and he told me he was waiting
for me in the car - when I ^{next} got out I ~~had~~ my back suddenly
bent over with pain as I was walking ~~to~~ to the car -

You can see "They attack myself where and when they want to

I wonder if my husband is not going away with the sharksness
movie and the actors.

I always thought "they" would ~~brillat~~ me with a gun - what

I told you about what they would do. I did not imagine it ^{if they} make me act with the nail of my thumb -
What I don't understand is why the showbusiness man
must be knowing that he once he asked for something at
by the telephone. Since that day when he got nothing he
here ~~start~~ did it again. So what is the danger for him?

Some days my sheet becomes a bordered and microbes
ing moto, cars making different noise as to day G.F. Do they
enjoyments me to go into a "psychiatric clinic"?

It's hard to work and it would not serve to nothing. you can't do
nothing. and I am suffering a lot on my back and the painful points
on ~~the~~ ^{the} ~~head~~ ^{in the head}. I am sure I would disappear as soon
as my husband would go out and would be with the showbusiness
man. At least he would believe it, but who will tell him
about the mafia. - None - ^{as} yesterday night might we speak
of anything more a lot because when I am suffering a lot it's difficult.
but he does not want I talk to him about the mafia
the satellite and the actresses. "they would here, tell me that
way ~~as soon~~ if he would stay by my side.

"they" make the whole that he thinks I am crazy, make the
whole to separate myself from the people ^{of} outside
~~the~~ ~~project~~ ~~to~~ ~~leave~~ ~~me~~ ~~absolutely~~ ~~alone~~ -
A more show on TV. alone at the night side. Could you tell me
who can I meet when they put myself like a puppet ~~into~~ ⁱⁿ a suffering
circle a way that I can only lay down?

A man sings making the movement I am crazy

I did not think to go outside before they put me like
a very painful and bar handlets puppet who could only

lay down on my bed obliged to - After I thought why they stop me to go out - It's not because I was afraid they did that when I got up - stopped when I took my breakfast and started again when I tried to ~~get~~ stand up properly. How could I get out when I was obliged to lay down on my bed suffering in another way with awful pains ~~or~~ painful ones on my face and my body -

all for the "Elites" of Scientist or doctor showbusiness or Press or political people I am a ^{Paranoid} ~~Paranoid~~ person who must be afraid of being killed and the paranoia makes the pains. What a Total ~~Misunderstanding~~ ^{misunderstanding} what a huge mistake!

When this morning I told to the psychics the pains were stopping when I was eating ~~It~~ told me he did not understand ~~but~~ I told him, what I discovered yesterday thinking what to tell him if I could go, it's if I would be suffering I could not eat and since such a long time I would be in the hospital. And they did not want that they have decide to kill me the way I told you into pieces ~~and~~ at the end the head cut from the body - As I gave the answer to the Psychiatrist he must have thought that my brain stops the pain because I was afraid to go to the hospital maybe. In fact that I am a paranoid person I did not ask him if he thought it was psychodynamic I ~~am~~ begining you to think that it's not true - For the first time to night when I sit down for the dinner I was still suffering I ate all the same a little.

The Animator of the show of another show Tarabata house 2 one to night makes the sign with his finger like a gun ~~Pou~~

Shaming the single shaming to any who wears a white scarf around the neck.

When I say I would disappear - they would make me disappear.
disappear

At the TV a singer.

or ^{all} me have to die - Cut into pieces she would like

I am not a masochist.

About the man who opened the doors of the car with a little machine walking they really make me a turn on myself and ^{make me} push the door of the garden.

They see where my shoes are. Three hours on myself I had to get ~~back~~ ~~to~~ seat and wait ~~to~~ hours to put my shoes on.

I have eaten less I could finish my plate I was suffering too much. It's the first time they ~~not~~ trust in what an eating.

Until yesterday night ~~was~~ we were watching TV and my husband asked me if I wanted some ice-cream. No pain at all during I was eating it - As soon I finished the painful joints ~~was~~ came back again.

The Russian made a lot of experience on the brain during the cold war - I wonder if the ~~or~~ ~~crack~~ first ~~are~~ ~~crimes~~ are mission or not - Anyway it makes any difference.

No hackers no crackers - ~~what's for?~~ For a Paranoid or I think I understand ~~harassment~~ of other person, to do it if you understand me. I am offering so much.

When I think that the ^{clearer} persons or sensitive persons ~~to~~ don't want to think for a moment that the Unbelievable is ^{the} Reality and think you are the most crazy Paranoid with ^{anyone} somatisation. They ^{anyone} don't leave no more my back without pain ^{at home} ~~at home~~ ^{it's} ~~it's~~ ^{awful} ~~awful~~.

Until the persons I loved or love - think I am crazy or I have been crazy - I just tried to go to The Kitchen to take some pills again - pains - walking very slowly my back bent over - again - again like a puppet - I don't think they would stop - they really don't want I joint with my husband anymore. The sharbas mine think I am a Paranoid and stupid person and persons who wanted to meet me too

I don't know what to do -

Everybody would have stay in their ~~certainty~~ certainty they have vanished ~~on the~~ all they wanted too. Compensating me with a supra woman singer.

I'm going to work - As soon I arrived into the bedroom I was taking my sleeping pills a car making the horses in the street.

I have remembered very often or little after I was in the bedroom at night a car was always passing by - making certain number of horses very often:

The movement with my nail of the thumb they make him several times. It's didn't come from my imagination -

this morning I awake 3:10. at 7:16 or 7:17 the time I look at the alarm clock. An awful pain on the eyebrow right one. It was unbearable I took several kind of coloring pills who made nothing - so I took a sleeping pill. I got up on the afternoon bent over with my back bent pains on all the top until the middle of the back.

During the week of April I could not go out only in the garden in front of the house whenever the car so I went to Paris with my husband.

When I come back to cross we had to go to shopping - I do it - when I ~~could~~ wanted to buy to go out after it was on the afternoon yet

It was impossible - when I could go out it was not the good day and my husband was angry. the day after it was useless too late -

(3) 4

I expressed myself badly concerning the Guy ~~was~~ who was calling me without saying a word - truth I did not to sure to have the possibility to go outside. I suppose too if I had to explain it the world here thought I was crazy, and the consequences that I have been outside waiting alone days & night for nothing. And I told you what would have done the satellite but I did the best I could.

When they were playing Jesus Christ and ~~sounds~~ he was coming back to Paris and after "I we can help you" I ~~was~~ in but he didn't want without me. And me I was thinking they, if they knew where he was they would pick me up - like that time I was alone on my side and my husband too. I can't tell you when I learn that the

criminal organization wanted my skin and don't know how the other people knew it neither. But nobody knew about the satellite - I understood it only last year "it's a fiction". I don't know nothing about it. I was wondering how the people could help, I thought that the people who wanted to help has a way I could not imagine - everybody was looking like so certain to have the possibility to save me - However I followed to try in vain of course - And everybody was angry with myself & they could not understand we could meet.

It's since last week they did that with my back - And they don't stop.

Hitler has been elected, demagogic people are elected as president

of the Croix Rouge. The unbelievable has been done, Geneva too - During the war the direction of the Croix Rouge has known on a certain moment of the war what was going on in the Compta, they did not say nothing -

The Nazis, as certain mass war people was wondering what they were doing with the Jews people and the other ones they asked to a member

of the Croix Rouge to come a certain day visit a camp. they ~~made~~ ^{built} a village with musicians playing on the place, people cheered normally with food and a actor Jew to film make the movie the nazis were accompanied the young members of the Croix Rouge. - ~~Without~~ adding to go ~~to~~ to other places - He noted that all was all right -

The nazis made a movie of propaganda showing that the Jewish people were well off. They were together happy - the day after the munitions and the director of the movie were eliminated to another camp.

so I give you the example that as the direction of the Croix Rouge knew it, the fraction of the army in charged of the security of the space above France knows it and they don't want to destroy it. as the guy in front of my door asked if a satellite could target a person making pain and ^{very} strange symptoms he answered to me it could do it until to ~~see~~ to die someone and why the Army did not want to destroy it, he answered to me ~~that~~ the army has no interest to do it.

I am sure they can see what I am writing because when I wrote to the deputy political penar they wanted to eliminate myself they make these signs of butchery with the ^{hair} ~~mouth~~ of my thumb. the psychiatrist told me that nobody would give morphine and the morphine would make any difference when they put myself like a puppet. - my back bent over with my head bent over walking with little paths. and it's too late it's a question of days would arrive before you receive this letter if you receive it.

I know I have been repeating myself in all these letters
If you dont receive no more letters it would mean that they
made their body. I have an idea in my head but I dont
know if ^{they} ~~you~~ would not stop there.

Thanking you so much to read me I cant do nothing else to
write I think of an idea I dont know if I ~~can~~ could do it
if I want to do that.

My husband did not sell the actions and there is no more
money on the account of the bank - and he has to go to Paris
to do it both of us. (even he can sign for me).

With all my thanks to read me
I wish you a good following and the Best.
Love.

It's not since last week the walking is described painful
puffed with my back. It started on the Thursday of that week
before the day ^{on Monday} before I went out with my husband.

They can do everything to my brain as they did with
and put me again normal to cut me in pieces.

If I am speaking of money I dont think at all to go out
when my husband would be away with the ~~shadows~~ ~~in~~ ~~the~~ ~~movie~~
Everybody thinks I refused everyone and look very happy
because we dont ~~try~~ ~~to~~ ~~die~~. They ignore all of what they
are going to do with myself.

I dont understand nothing I to day it's not for me.

Yesterday I heard somebody like dying: and speak about scanner

Thanks for that has already been done.
I understand that there was no a magic way to escape to the
satellite because I would not understand why the ^{the} ~~the~~ ~~was~~ ~~so~~ ~~violent~~ ~~sometimes~~
against me making all while I work without ~~rest~~.
I remember when I saw him in ~~the~~ ~~becoming~~ into that bar I was making in front
of the other end of the sheet and when I wanted to kiss I had been ~~stuff~~ ~~could~~ ~~only~~
write slowly very slowly I dont know to do what people suggest or not.

I just saw the marvellous singer & guitarist Americans (6)
not enough it has been very too short, at any it's a pity
It has arms in arms I told you about with Sean Penn

The President of the Festival de Cannes. ~~It~~ He plays with ~~one of~~
^{next} ^{the best one I think.}

The ~~brat~~ - Mann Katchi. ~~It~~ I could not understand
all the words. He does not know neither the existence of the

intelle as Sean Penn Dogou understand now why I have been
pulling in a deconstructed puppet with this so awful
painful back and obliged to lay down. - The cummels back
understood. I was speaking about Richie Heavers. and Wobray sympathetic.
But my body thinks I am crazy. It did not mean anything but I am sure
of this. R. H. had an manicardref in his left hand.

I wonder if the showbusiness movie knew that the cummel organisation
knew what was happening. I mean all.

We have no more stamps. I hope my husband would have time
to buy it and post this letter

I think when I told about the showbusiness movie in the even of the
showbusiness movie I wanted to ^{have} say, both ignoring the
existence of the ~~intelle~~, And the ignorance makes these
every every honest and good project - I think that there are
a agency of secret agency if G. ~~the~~ ^{the} ~~of~~ of whom I respect
his political action could have asked to that kind of agency
of secret agents to ask for a hard word of hackers & Hackers
instead of staying in an ABSURD certainty -

That I am only a poor foolish woman. But to make
doubt or frisk and try to act has been always difficult
for the Brain of the human being. - I just hear I imagine of

Kenan Robooy has imagined it was the unbelievable
could be reality I repeat again and again

I am so surprised it's a weak word to say concerning
the subject of the existence of this intellect and I would
be the first and the last to ~~to~~ know that I am the
victim of these criminal and torture machine. The others
would become crazy without knowing why or
victim of a heart crisis and die. Batman the criminal
organisation that would be used I am sure but that
don't concern other people but may be used against
any ~~person~~ ^{lothering} people for themⁱⁿ -
I feel upset ^{in a bad feeling} to write still and watching TV
when I know ^{about} my situation.

So I stop to write.

Now a humant ~~amazing~~ I am a complete masochist
putting ~~him~~ on his feet ~~pieces~~ ^{pieces} for clothes - ~~striking~~ his
face and a redone to his left fingers.

when I ~~am~~ think of all I did day & night by
my kind ~~judges~~ rights in Paris when I could do
it - when they did not do it

And if I stayed on my door ~~at the end~~ ^{at the end} of the garden
day & night until the morning for nothing, and the
fact that one guy told me "I don't know what you are
doing outside but there are young people who are going to
make you bad thing even I don't want to know what you
are doing here. I had to come back inside to my garden

everytime they were coming to my direction - And the cops
I said to you for the man making I did not care of the people

going in the form of a prostitute, so near to the end of my
 end knowing what it would happen to me. I can tell
 you I did go out again even that, even it was awful
 for me to have that fame. The question was important -
 I have to tell you that when I wrote to you say often
 I had electricity in my head and I never read again my
 letter but I explained in the last letter ~~that~~ I thought
 when I was having help is coming everytime he was
 coming back to Paris, I thought if the people could help him
 they would try to help him as the others wanted to do.
 And ^{with the} Ignorance can bring ~~misunderstanding~~ ^{these}
 and total inexistence and bad humiliating things
 to a victim of a monstrous machine that I try
 and have tried to fight against it. You can't
 imagine how I stay suffering at that doc -
 trying everything to fight against the pain - trying
 to walk until I found me the knees near the meadow
 with my head - trying to walk to force when they stopped
 me - If only this humant and all the people who
 think I am a masochist would ^{be} suffering every symptom
 they did it to me only a few days they could
 have swarmed themselves because they ~~are~~ known
 "people" who ~~must~~ ^{might} get a doctor giving anything
 to stop this hell and the end of my knew the end.
 It's the most sophisticated machine of the world, these last
 years. But Everybody is dumb -
 Ex: my mother or family "How I can think that

3 actresses want to love with my husband
even I ~~don't~~ remember them He made 3 years of a
little school movie with 3 short cuts even they ~~have~~
have not been developed and his cameraman photograph
is working in the show business documenting.

I appear like a ^{so} ~~jealous~~ ~~guy~~
that I ~~am~~ ^{become} paranoiac.

Everyone ~~is saying~~ ^{ignoring} something.

thinks I am crazy paranoiac. I never said nothing
about the TV the Radio the ~~small~~ meaning
of certain movements they love here

the only thing I said several years after the
beginning, I said there are people who know
about the satellite who want help me.

But they have forgotten that I was wrong
because I thought the people who wanted
to help I did not want whom I was thinking
that the people who wanted to help knew

a magic way to take me off that satellite

I was always wondering very late as you know I have
know I have been believing in such a false thing.
And if I never answer ~~at~~ the telephone to talk about
that satellite who was helping me I thought to
have the occasion of speaking about it ⁱⁿ ~~in~~ ~~in~~ ~~in~~

my husband who is going to choose between Bactrees
why not ~~the~~ 12 said my mother, how the showbusiness
there want to ~~take~~ ^{take} my husband away he is unknown
for her.

At every level: my husband the same he can't hear
I speak about it - Nobody knows him ~~for~~ and so on.
for him its an impossibility - At every ^{level} ~~the~~ ~~level~~ of
ignorance makes a harassment of myself.

And all the rest the same - He is the only one to know
in a few days that what ~~happen~~ I said would happen for him
I is not going to believe nothing of what would happen
to me I and I wonder what to do - And I am sure that
nobody is going to speak to him about the criminal
organisation ^{who} knows to pull me into forces - I even don't
know if what I say you believe ^{it} yourself - You must
know I have too much bad imagination - like yesterday
day the man of the TV show Pours with the fingers like
a gun. I beg you to open your eyes and your ears
I never imagine that, that has been made by the
nail of my thumb of my hand I could not
believe it - But that happen ^{several} ~~times~~ ^{times} ~~times~~ ^{times} ~~times~~
with the nail passing my nail rapidly on the both
horizontal with the nail of the thumb and the rest I hold you
about - I want to ask you to excuse me if I can't read
again my letters because I am unwilling so when I
am suffering - And I am exhausted - I forget: pin prince king
pin prince king the right ear - Ignorance making a
so bad judgment on a person - How the story is
perceived it's really horrible and so INEXACT
SO FAR AWAY FROM THE REALITY ~~ITS~~ - How all the
world can think the same stupid thing -
On ignorance rejecting when the doubt ~~is~~ - Guiding

had a problem with the Inquisition religion - He has to
say that what he discovered the earth was round
was not for not being burnt, I am not this genius
person. But I am somebody who discovers she was
she is a herget of a machine & it like the most
dangerous machine which can destroy a human
being with torture and the end. It's home to
awful to write this word because of the Barbary

And people are laughing at me as the most
stupid girl of the world and masochist. If I
could give my pain to a masochist one
I would do it ~~at~~ at the instant. Stupid of them
and very very straight mind.

There are pills against the pain I took much more
and it makes nothing and I have no concern

Since I have no morphine but the psychiatrist told me
that nobody would give. And he doesn't know how
much of different pills against the pain I am taking
for nothing.

I can say I would have been the most stupidest
things, from the part of everybody - ~~At the radio~~
on I for example so stupid songs and aggressive songs
Fortunately they were others. Some most of them said
I have qualities of sensuality and love and so on but
sometimes it was so stupid. It was really not knowing
myself - I told you about.

They speak about the death "Les Soins Palliatifs" doses
of morphine to die. My husband told me that in

any hospital they would accept to do it. I have no concern

I would be taken for a Paranoid. They have not had not

learn anything about the intelligence of course and can't tell how much it's hurting -

I smoke so much I thought I would have something but they

did two radiographies of the lung and nothing

I don't swallow the smoke - I stop here I feel best speaking about similar but not similar to this smoke when I

think of what is possible to do or not. I know and I'm sure

what this machine can do they don't want to make one a heart over. They are much barbarians than that.

They can do everything the worst to the brain to the green

and transform him making acting as a robot. It's

degrading before the machine.

Another enormous stupidity loving pillars & I think this not a comedienne they show playing a group calling like that.

Exhausted with being painfully not knowing yet what can I do

in the first of the present. I would could not not do I want to

the machine is too sophisticated

The ignorance I made acting for nothing at not enough (Krocker

thinking that the other one is stupid and ~~knows~~ PARANOID

ORIS more or less - when I write the right things I know the quality

I don't know anything - the mind is not what it seems to

be - sorry of you. I still don't know I feel down to right

A parade at 4 o'clock. and the faces are playing again in the same way. It was a threat

to show up, over with the other people at the same time

and more. It is on the way. It is on the way. It is on the way.

I am always looking for my penit. I am again the ~~same~~ book that
our work the head bent over. My back is still less painful
like
Tony brother I write explaining the strong ~~some~~ with the criminal organization
and the telephone of my husband. He is a sociologue but ~~he~~ is learning
for a long time to become a therapist. I can't remember now
the name of the kind of therapy but he had read all books of great
psychiatrists and says I am a paranoid person. Since a long time he doesn't

phone me because her step on his position in state of I am
telling him about the satellite. My sister says thank the same -
I never told them about the "help" and what I understand about other
things. It's not matter to know they would think I am
more paranoid.

I don't fear if the satellite would make members of my family
dying on a suspect death because a neighbour of Paris
speaking in a microphone told that

It has been after they thought they was sending ~~sentimental~~
~~intimate~~ letters to them. They was speaking, a woman spoken
during the night that "my" I was a dirty Jewish woman and ~~my~~ —
I would die with all the members of my family - so I awake
my husband who was snoring off this time. When I told him what
happening he told me I have had made a ~~nightmare~~ nightmare.

As soon he fell asleep again snoring very loud again
the woman starts again. I could not understand what was happening
then I fell asleep again. I remember a long time after that

I had seen on the Champs Elysees a shop with guns, like covers
in a point pencil blue guns, and miss directional
which are able to learn to the neighbours. As soon as the man was

going to go down the stairs, or can wear a tapping on front of the door
of my building.

once at night, my husband was finishing the newspaper very late.

I was in bed when I heard a person above my flat the 6th floor
going down the stairs and until my stage and going up. began to the
6th floor I was at the 5th.

I thought that the person forgot something. But as nobody went
down the stairs another time I looked by the eyes of the door and

I saw a paper just in front my door. I took it. ~~And~~ And
it was written "To the person who called by phone disturbing me

If I made noise it is because I've have got an unwaterproof
flood during the night, you must be under I have the
pleasure you are under the flood too and you are not

You are the author of the antisemitic letters we receive
and you're punished by the article of its constitution.

I never phoned them, I never hear noises during the night
and I had no flood in my apartment. It was must have been
during the great tempest, but we were on the road
coming back from my mother's house.

When my husband came back very late I showed him the
letter. but he told me he did not understand nothing
and as he was very tired he went asleep. (Now he doesn't
speak anymore). ~~He~~ He soon he was going to make a lot of
people was getting upstairs to the 5th floor with making
noises with their boots and they were spoken in the microphone
or talking very loud of horror things to threaten me.

~~Once during the~~ - It said to my husband one here to

complain to the police tired of being awake every night
when my husband was shouting during the time sleeping
He told me that I had no proof and I was making
nightmares, one I took a sleeping pill for not hearing.
One day evening I said to my husband so come with
me to ask to a psychiatrist to know what I can do.

During the night the woman spoke ~~to~~ downcast in her
microphone telling "the mafia knows good psychiatry."

We went to a psychiatrist who thought I was learning
fiction and gave me neuroleptics, telling it happens
to everybody I was furious. So when E received the
letter in front of my door, the day after I wrote a
letter telling them I was not antisemit neither racist
it was a proof of foolishness and total ignorance,

that I never telephone them I never insult them, I even
did not know their phone number. So soon I hear the
guy neighbour of the 5th I gave this letter to him, he
said that his girl was Jewish he is too told me another
girl he was with because his girl went away left him.

But I told that to my family I was making
nightmare and was a paranoid another time.

To everybody I told what was happening during
the nights and days when my husband was walking
it was ~~was~~ an Evidence I was a paranoid because
we are both in the same bed, I was hearing that
and he was learning nothing. During this time
his mark was not more interesting so he ~~was~~ talking

(10)

everynight sleeping pills. You see I had no religion at all.

And after when I told that story after they finished to do it
a person told me they are making the ~~Bad~~ Bad for the same
Bad to me its a technique to make afraid.

Even the psychiatrist did not explain me that when I told them
about their letter they received and they made the renegance
on me.

For that reason one day morning I wanted to stay in the flat
of my ^{little} mother who was living in Paris. but as soon I was in
the taxi I received a so violent pain in my head that I had
to ask him to stop. As soon I was on the pavement the violent
pain stops immediately. on the afternoon I went to see a doctor
near my house and I explained to him the pain in the head
with the story of the Jewish people and speaking in the microphone

He gave me a prescription of pills again the pain and asked me
to see him back. But to to me not believing myself the
what happening about these whistles in a microphone by the
inman. I took an appointment with another doctor I knew
for quite a long time. I took the taxi in the center of Paris
and the fierce violent one started again - I resorted asking to
the driver of the taxi to do the quickest he could.

I arrive in a very bad state to the doctor I was speaking with
difficulty weeping and telling him the story of the whistling
of the 8th floor. He said he could not do nothing for me I had a see
a psy drama Always this feeling reaction of the people.

I took the tube to come back home. And at this time still
my husband thinks I was doing right more even with the letter of

The 5th floor telling I was sending antisemitic letters to them
and insulting them at the phone. But he is absolutely sure
I did nothing of that he knows me he knows I am not an
anti-semitic person neither racist and he believes me I never phoned
them. With such a proof and the relation, as he never
lessen the whispering in the room phone all kinds of
shattered things and about the good psychics in the media
he does not believe it was not a nightmare or a paranoia.
Other people made the relation between the both things
the he even wrote them that I never did that too
because there was a guy who cried at the 5th floor
who said in the afternoon I want her flat I want
her to stay with my fat girl. For that reason
they continue. Then they stopped - the girl had left
and the neighbour of the 6th floor quarrelled with his
friend who told that
But after comes all the pains and I could not go out
out of my flat putting like a puppet. and they were the animal
were stopping me. I understood that was the satellite
because the penis was strange the symptom of puppet and
very stopped and treatment which making very positive
thing. in spite of the good scanner.

once during the Jewish story I silent song come out
of the radio FIP which hurt my left hear. I told
that by phone to my little brother he told me to go to see
a psychiatrist. my hear was hurting a lot this sudden
sudden sound was not a sound of an instrument
at all. So on the evening I told that to my husband

11
do it was hunting, I told him that I would look to
the doctor to come. He answered to me. If you do that
he would send you to a psychiatric hospital.

I answered I did not understand him. I was listening
FIP since he put the radio on in the morning before going
to work, I made things in the house because some he left

and when I got went to the bathroom taking a tea

I received that sound on the right ear suddenly.

He ear nearest the corridor between the living room.

I was the end of the day. So the day after my ear was
hunting myself still, as soon my husband left I called the doctor

as he did not see nothing he made a prescription to make a

scanner. I put some special things in the ear and went

with my nephew to make the scanner. The doctor who analysed

the scanner told me that I had nothing but I had to consult

a O.R.L. a doctor specialized with the ears as soon as can.

What I did, I had the nerve of the condition heart. The

doctor gave me a prescription for 6 months and asked me

to go to the country. (because the noise of the cars was hunting

me a lot. I did not lesson music during 6 months in Paris

But this sound was in the telephone the day after when

my husband was phoning me. I had to ask him to phone

me. I would call him. He never hear the sound

on the line. But when I was trying to phone him

I was always falling in a wrong number. Banks police

or anything else. It was really such a pain to speak to

him at the worst number. than everything stopped.

As you can see it's very easy that the persons
can take a person - for a paranoid persons. It's not the
first time but the person follows the same thought.

When a person begins to think you are a paranoid
person even after they know what I have told them
my little brother my husband was true. The fame is
done. My little brother still thinks that my cousin
sister next has been hurt for another reason.

a further reminder of course. I have phoned to
the radio station to know if they had perceived this noise
they told me not because they had heard people laughing
every evening again after that has passed during the day and
night. So it's a person who knew I was laughing
that station who send with a tally walker or I don't know
with what they send this violent sound. Could he
be the Jewish of the 5th floor? before they whisper had
things in her microphone when she was there on the
afternoon? or the criminal organisation?

And after with the telephone?

And how it would be possible making again and again
the same phone number I was falling to another number
again before I could place him?

The losses were making so much noise that I had to put
a whole hat, things in my ear and a helmet for of a motorcycle
scooter.

That last days 8 months I had to go back to another ORL

Specialist who has to make another prescription for 2 months more.

I can't go out to day neither. I know now they would not stop

the pain in my back. It's even painful to get down - to my little brother

12
they have known absolutely it and made a lot of country believe it
but that has been done little more in Africa for
strategy and policy. until genocide but that it's
has been done often. Even Bush mixed the two - center
Al Qaeda and Saddam Hussein the dictators.

That's one current affairs done by a few - dictators
and make believe to American people very proud of
that you - unless now. But an IRA such movement
can be imagined because there are only the army that
usually makes awful structure of destruction - And for the
geology and petroleum a lot of things has been done.

They were full of CIA people in charge and American government
was afraid of the socialism of Algeria - We know what has been
done of billions and desert people. - That can be understand
too. But still not this awful self-destructed machine
can't be imagined by the brain of everybody -
It's not necessary I follow -

I don't know why I could not stand up ^{house -} so soon in the morning
I fell down on my bottom and I have difficulty to stand up
maybe too much pills or the intellect I don't know -

Very often I awake at 7:15 or 08:15 o'clock.

When I come back from the psychiatry and they made me suffer
the back less much and I had not slept enough, the more talking with
I lay down and - fell asleep at 15th o'clock I was awake.

That does not look strange to you as the noise when I am awake before
sleeping always a car making 6 noises? I am still a tent over with

my head is bent a little into this awful painful back - that
the news since Thursday and unable to stand on my feet or sit down.

is not agree with myself and thanks I am in a state of
Paranoia as everyone who does not live anymore Paris
don't phone me again. So I started again even he can't do nothing
to tell him about this new new position as painful puppet in my
back in his phone leaving a message.

Would you excuse me to write you such a long letter
when you can't do nothing but I want you know, even in little
^{very} bad things which happened to me nobody believed me. So for that

UNBELIEVABLE satellite in the imagination is a reality ~~strangeness~~
A more machine ultra sophisticated technologically.

The showbusiness movie is not going to wait my husband
cured his cysts to take him away they are good
doctors in USA - for example -

"The" doctors of the satellite knowing everybody of my families
take myself for a paranoid person already is not difficult to this
last time. If only my husband to whom I told
nearly everything could have believed me could have talk to
all the persons he knows ~~at~~ the people of the newspaper,
~~the~~ a lot of people would have known it now. - But
it's UNFORTUNATELY not the case. Because he saw
me with the symptoms with him outside several times
we were out together. Talking a walk twice to the river
in the parking in Paris in the car. and at home knowing
I am offering such a way. Even nearly everybody
in America in other countries has believed that Saddam
has arms of massive destruction even the President
of France now. meanwhile it's a question of petrol

my family live in different parts of France -

Before all my sisters and brothers were in Paris

And the youngest ^{much} than me but older than the other one lives in Canada with his family - my sisters and my brothers even he almost can't think what I told them is true. I did nearly the whole things about my husband phone call and my symptoms to him but the one in Canada. I told him too but not of the people who has wanted to help and I said nothing about the meaning the teeth, the numbers the meaning of the movement at the TV by angles and other ones. It would have served for nothing and they all think that I am ^{the} so jealousy, transforms me in a jealous people like the sharklike people who wants to help me "save him" like says the song yesterday. Emmanuel I see the advantage of G. Flourey I think poor brain unemigratable means because he makes the sign I was crazy on an interview ~~and~~ and showing the three actresses with his left fingers of his left hand to have so much money to know so many people and he did not even try times to ask to some Michas Krackers and put out agents on that mysterious things and machine.

It's much easy to believe in God so much long tradition and before paganism, to explain when they did not understand samples of son. Easier to make a movie than to ask himself questions about unknown ^{sethshaded} technology in the field of the destruction. He is too young and too far away to think about the Unbelievable comp of elimination of the theories and it was an ideology. However he could think about the ~~so~~ huge horror of the mafia? He made movies and must

forget it it must not an idea of each of his everyday.

Just because he's far from that ^{all} - ~~to~~ the other persons
nobody of the more would ^{feel} tell to my husband of ~~his~~
the story of the movie. - My husband must have seen
my mother takes 2 little pills against the pains and it
makes fantastic result. I too am taking much more in
number and strongest ones which make nothing, has never
made ~~something~~ 'no effect at all.

About the religious - ~~for~~ I dare not as I hold you but I
don't care if people has the tradition, the money and the
people ~~wants~~ wants believe in the immortality. - When
I think that all the criminal organisation are very
religious. "You would not kill" they do it so easily
in mansions way between themselves and judges

but they must confess themselves after I suppose -

Hypocrite in most of the political people to be elected with
their so big demagoguery. - And when I think that the

Country of human rights, amnesty international made some
understand that we ~~are so much~~ they were felt some

needs ago. of course in relation with some other countries -

but when I think that a President of a democracy
less one less democratic it's what I think, ~~is not~~ does not
to know the existence of such a monstrous satellite

and that he is the chief of the Army called the great Dumb

I am appalled. We know things that the Army did

only now so. --- I have found the dinner as the pains

are starting again in all the large back -

I have been feeling that all these strange pains and symptoms

more coming from outside of myself ex: when you face to do something and you absolutely can't do it. and so one is its big awful state of ^{pained} puppet.

And more than that when I asked to the Guy just in front of my door when I was going outside on the pavement.

When I asked him the conversation with this guy he laughed at me. - He thought that this Guy makes me a joke.

Just when I have the letter to chirac to put in my pocket.

The satellite knows, I mean the Cummals Pinsky satellites know exactly what I am doing, exactly who I am and with who.

I thought that love could help with all the details I have given, ~~could~~ being me with the symptoms with whom he had to support me when we wanted to go to the river and all other symptoms. - But love does nothing at all: he told me he was

Paranoid during nearly one year he has never had these kind of symptoms but he was being vague in relation with him; that was when he was very young. I did not know him at this time. - So when I show him signs meaning that a thing corresponding to my situation, he remembers what he has known when he was sick. Any talk of a person of

a way of looking at him was making him Paranoid. It has never been my case. - You must know it - The few few persons

around me never ~~frighten~~ ^{scare} me they don't do anything to me, only the Tobias Pres. - my brother of comate come with me of his child in Norway from comate. - I was feeling completely

well I felt only having a slow mind. No symptoms no pains everything alright until after we accompanied them to the ^{train} ~~train~~

Shaban, when I come back they put me like a puppet
during I was trying to open the door of the house.
I don't not speak about the satellite when they were in the
house and during all the day without pain - He had forced me
to tell me he was coming at home. But the day before
I have prepared a letter with many details the criminal
conviction and the phone call of my husband and the
shortness more with the 3rd times - and before he
started I gave him to him. I phoned him but
he answered to me in a critical way. too much
imagination of mine and jealousy - and as my aunt
told me to try hypnosis - If I was telling that
after a while telling the same thing he would say
to make electrodes I am sure of that (after taking a lot
of money). After so many years hospital use of
acupuncture you take off the pain. ~~But~~ But it does not
work with myself, unfortunately - they stopped of making
a pain in the heart after one month they made a doppler too
all over alright I saw a doctor during more than a month
after the doppler they stop - Because I was telling to the doctor
of the hospital who was telling me it's normal now I have
the same ^{pulsation} that you - and I asked why about you feel pain so?
so he asked a doppler after "they" stopped.

But sometimes they start again a pain in the heart and when
I take the pulsation it's normal - "they" has tried since Tuesday
this awful pain in the back, tentorer more or less in puppet
it depends when some pain in the neck - you are not a doctor and
even a doctor can't do nothing - that what has been change that

when I go to the emergency of the heart pain, the they lie me 13
in corridor during one hour waiting for the radiography - I was
not feeling no pain at all and I went out without pain too.

They had ~~not~~ only saw the pression too high they gave me a
prescription who makes me nothing at all - the day after.

until I saw with the instrument after nearly one week, at
least several days I could not stand up and laying down it was
the same I took the ~~instrument~~ instrument of measure
to look; and I saw 140 beating of pulsation. and more a
more elevating so what^{is} the afternoon as it was raining I
called the S.O.S doctor who gave me a calming pill telling me
to go to a private hospital to consult a Heart doctor.

he was not more here, he left at noon and I hold your
hospitalisation after with a certain pill. at one o'clock in the
morning - I asked for sleeping pills with the ones I have put
in my bag and I fell asleep. After several pills the pulsation
get down but the pain was coming back some times.

that the doctor did not understand they I insisted to get more
of these pills but as the pulsation were going down they
refused telling me that kind of pills were dangerous, ~~and~~
were coming up the pression - now there are pains
in my neck in front above below the face and the chest,
it becomes very hard on the chest and in all the back.

It's really too much. I think it would be the last letter

of my husband put enough stamps and put it in the

box-letter and don't give it to the woman at the desk.
I never saw that this woman again - she must have well
paid - the mafia is everywhere and pays a lot of things.

The last time I went to the ~~fast off~~ tobacco press shop the woman made a sign that ~~was~~ I would be separate from my husband. I signed the document of the divorcing or taking away I don't know how maybe with the help of his friend of the movie school when he was cameraman. Now he works with persons well known as a cameraman for documentaries.

But the scenario must be well sophisticated and well prepared. When I see political of the right side old and young people disgust me - when we know that the mondial ultra liberalistic economic direct the world ~~who is making like slaves~~ but not when most of the people works like slaves like slaves. and the social and the research and the culture ^{education} has reforms ^{organizing} absolutely in the wrong way.

In that moment Reform goes about not on the wrong way. When I think that the Presidents think they are the most powerful person. Fortunately that they are connected with the criminal associations. at least the French President I am sure that he does not know ~~the~~ the existence of the satellite and the minister of the Defense of the Army is occupied to ~~see~~ sell Rafales planes. and Arms to others countries he does not the existence of the satellite; other members of ^{the} governments would have known it. ~~the Army~~ the President chief of the army he has only the name. "the Great Dumb" do what she wants Bush doesn't know nothing neither - I am not sure of Pontine. I don't know.

When I think to the urban singer concerning the song

" I don't know why people say nothing

Hey Mr Hyde, this awful thing.

If we know about the satellite I think I would have told it to other people other singers

Any way ~~they~~ ^{the} never hear it on the radio anymore.

I never understood of what he was talking about.

The life would go ^{on} as nothing happened nothing

mentioned as this satellite exist. Some would die without knowing why - as if it would be a natural death!

I can't read in the future I don't know to night what I can do the showbusiness more would be happy to have done a good action " saving as they say ^{my husband} ~~choose~~ and give him a new love with

a lot of money. And my husband would think I would stay with someone of my family - He would not think to be single - forgetting I ~~am~~ don't go out of that

house. At least that the criminal organization makes me

go out in the street ^{du} in the night - He forgets that the money is blocked in actions. Unless I adopt another solution before he goes.

You would know if you received some words of mine.
