5/6/2008. ①

This afternoon when I came back from the little place and from the little wall of the house of the neighbour where I was reading <sup>PATATI PATATA</sup> Patati Patata e no folla portuguese. Eskit I bolle yous? I don't like the only thing I like - I have no more little notes with earphones. Nothing in the 3 bag ~~but~~ surfaces commercial and no small boutique -

I awake to night at 04:40 but I had a piece of analgetic and fell asleep after hearing a car passing by the house with a 6 and 8 notes. Don't you think it strange that every time I go to bed and when I awake I hear the alarm clock with an hour meaning something and a car passing by - This morning I asked to my husband to awake me early - we had to go to have a fibroscopy of the bronch with other exam to analyze st. I prepared myself but it was impossible to go out.

The only thing I could do it's lay down listening music suffering. As I get up early and I was suffering I had been laying down on the bed and I fell asleep. When I awake I give me another time <sup>"I"</sup> ~~and~~ I need you I love you - I stood up and get until the front door as I was as a puppet until the door of the garden and stood stopped in front of the door I realized I had not the key. So I went back into the house and I saw that I had to iron my skirt

I was a puppet painful but not soon but I took the table ~~and~~ I did the thing standing without any pain - I put back the table and went out of the bathroom - I was suddenly again like a very beautiful puppet - but I took my jacket put my shoes on and went out on the street walking slowly. When I arrived at

The floor suddenly started walking my back again painful without standing up normally - Then it stopped. I turned my head in the direction of the little passage there was a man. I reached the bank normally without pain but it started again as soon as I sat down - I could not read - Then ~~I~~ the pain stopped so I started to read looking at the same time to the car. Suddenly my head went back I could not read no more. Then my head went near near my book and I was surprised. Everything stopped - and I saw persons crossing the place. I follow on reading in spite of the cold wind. Then it was the time of the children going out from the school so a lot of people. I follow on reading than I thought Nobody wants to sit down ~~and~~ next to me. maybe because there is a big building with the window along this little place. But why? Coming from so far - we could have taken ~~and~~ I could come back to my street and turn taking another direction. to get me in the car - It's the only way I can take when I go outside in the village. So I went back to my street and sat down on the little wall of the neighbour following reading. It started of raining my clothes were not as my back. A little guy without umbrella told me "it is raining" I only answered yes. But later on a very big lorry came doing a lot of noise I get up my head and throw the conductor with the left hand on his left hand. I don't know what he thought but he disgusted me -

My clothes & my book were so wet I come back home -

I told you I am a very sensitive girl and sensual because to demonstrate you I am not a masochist

Sure I know when I awake I should have taken my keys

2  
and, put my shoes on even as a buffet - However I was blocked  
stilled, without making a movement.

1 thing I would never understand it's for example  
when the first time I received the first phone call in Crove  
into middle of July nobody talk and went to another room  
to hear because my husband was working making noise in  
the garden and the big door was open, so I don't know what  
was going on  $\bar{d}$ . But when I came back to the living room  
I hear "so I leave you to your friends", who knows, was  
knowing about the satellite if I was ~~and~~ answering or what  
I was answering - for example - ~~and~~ for today did this man  
I recognized the  $\bar{d}$  representing the person - Did she was coming  
near ~~to~~ my house when he heard that song and did he passed  
by when I was on? Was it too late when I went out?

I remember that in Paris when REN was singing "I am  
in the corner crying etc... I was running down the stairs  
to the both corners I never saw more.

Very often here in April I was  $\bar{d}$  but I could not move at all  
with "tiraillement" <sup>very</sup> painful one in the face, I could not stand up -  
then ~~to~~ my back was painful I phoned to my mother  
and explained her that since that this Thursday when got up the  
new symptoms and ~~re~~ I never saw in my life a human being  
with such a ~~face~~ back so curved and bent over, and that I was  
suffering. I spoke of other thing concerning her and stopped the  
conversation. I explained for she has to understand it's not  
psychometric I gave details, I left the telephone I went to  
the corridor I found myself ~~my~~ myself my back towards

They turned towards the back and the head at the back  
standing up. The opposite exactly of the disarticulate  
of my painful back curved and bent over - then it stopped -  
I ~~was~~ could not understand that posture suddenly - they are  
very perverse.

I phoned to my aunt and she ~~said~~ told me that doctors  
did not know their work I did not that the weight may  
of curing me and she did not want I told her that the  
media would put me into press alive - I answered  
her that if I was telling what was happening to me and  
what would happen in the <sup>next</sup> days it was for she understood  
for sure I am ~~not~~ a Paranoid, <sup>total</sup> a crazy person and  
if she would not get the news from me neither from  
Claude it's not because I would have been killed  
but but dead. I told her even she could not do  
nothing I was giving her the details to inform, she  
believes of the satellite and the media I wrote it to her  
already but nobody wants to hear what I say.

When the elite of every specialty knows about the media,  
the number the movements, the signs does not pass the  
line of the unbelievable which is Reality. Because the difference  
between the elite and me that I feel it I guessed it was a  
satellite and a person told me that it was true and more  
as I already told you so many times

It's stupid I have been hesitating <sup>3 or</sup> 4 ~~four~~ months  
after reading his book (of the doctor, ~~disputed~~ - OMB and  
ambassador of a country of Africa - Too late I understood.

I write to so many newspapers, CNNs, Court of European Justice, scientific newspaper, and nobody believed me that I was hesitating. If he says it is too late that maybe he would have accepted to investigate. And he knows that I am not going to bother you anymore.

I feel the time going slow because I'm suffering a lot and very quick for the few days left before the butchery - my death which would have not served to nothing.

There no explanation of what happened to that personality of Ukraine in London with his crisis of heart Scotland yard did not find out and the story is closed however his doctor and his family told he was in perfect health.

Strong electricity in my mind and I have difficulty of breathing.

So I leave you stopping of writing. But PATAI & PATAI

I have to crush. thanking you so much if you read this letter and I wish you a good following

house.

I bought a new telephone portable - ~~when once my husband went to the hospital I asked to speak to me on the way back until the hospital. what we have done - then~~

When my husband went to dentist in PARIS I phoned him he phoned him back before coming back the telephone was

vibrating and vibrating I answered. But the vibrating has been much more longer than usual. The day after when we decided to open of the phone ~~at~~ until the hospital - then we come back

~~but~~ telling me something and stopped. Since we have decided that we would were stolen on the way to the hospital my

Telephone doesn't work anymore - It was new and  
was functioning perfectly -

So they can forget human being the synapses the neurons  
the nerves ~~they~~ <sup>every</sup> ~~organ~~ organ of the Body and can  
forget machine -

They made certain number of noises in my radio ~~apart~~  
several times.

And one makes making the tape of the telephone  
with the message of his mother which was ~~off~~ off -  
We have heard it and on the morning later on  
we have verified it was off - We never used it  
of course because the number was another one and it was  
not my voice -

I am mistaken on the tape message of the telephone Here was  
telling no numbers - just ~~to~~ telling she was out and  
place to leave message - It's really perverse - Because I don't  
know if the person who was calling was remembering my voice  
and it was an old voice on the message - What has been understood  
I would have known and it's a long time growth to common situation -

Anyway.

I think I describe <sup>near</sup> the position on the corridor badly - I was standing with  
my back all backwards with its head backwards too - Would you  
excuse my english I have been staying such a long time without  
speaking that language - Now I have got a much violent electricity

around the neck it's unbearable. NO the time passed somehow quickly -

They forgot the two 2 big veins on the both side of the neck. But there's a very good more of  
hair on the ear on TV. I was talking my talk in the bedroom just a car passed  
with a 4 nose. Bad day - it's the end to tomorrow - I awake this morning 6/5  
a car passed by with 7 horses !!! I am in the car going to Paris. they left me out  
in the garden but the car was in the street and a woman was coming I stood up.
