Mr. GILBERTO GIL  
Ministry of Arts

BRAZILIA  
BRESIL

# Gilberto Gil

To day has been <sup>still</sup> hell, I awake without any pain - After half a hour I have got "trailements" I cant find the word a page is missing about my active navy - My husband went to the hospital to make an radiography - I wanted for him in bed when I got up I was like a undarticulate puppet, my back bent with my head bent too, my legs knees bent with an awful pain in the back - I took my breakfast without pains at all, and as soon I finished to eat, I was again standing again as a puppet and the only thing I could do is to lay down on the bed with aw full points on the front the face the nose and the Base of the "Creme", until the shoulder and all the left side - I could not accompany my husband to the dentist in Paris - I took ~~I took~~ a lot of different analgic - I could not read neither I put the radio on - my husband called me to ask when were the following appointments to the hospital (on the road to Paris to know which day could be the next appointment with the dentist.?) Suddenly <sup>4</sup> <sup>had</sup> four horses and eight horses on the Radio - At what I understood I am going to be alone very soon this afternoon I had awful painful points on the front, on the eyebrows the face, The nose the shoulder and on part on my back - ~~now~~ I made the supper and have eaten without a pain - Now I have got a painful part inside the nose

at the right side, with electricity in my brain, on my foot  
and a painful left back with the hotbed.

Since 3 days. like a desynchronized puppet very painful and  
pins in a tooth and all the mouth. The point at the level of 1st  
vertebra is very painful. I stop the best you can't do nothing

But the thing is ~~is that this satellite can~~ to that this satellite can  
target every organ every point of the body, maybe  
they target the synapses the neurones the nerves and they can  
make not a movement or stop it

Nobridge <sup>make</sup> cars make noise 4 & 15 -

they can make a robot of a human being  
and torture. But Moore wants to believe it

and follow of thinking I am a crazy person -  
I never ~~hear~~ hear and no doctor has heard about  
so many painful points on the body.

The new one is ~~about~~ <sup>on</sup> the cartilage down the spine on the right side  
I <sup>am</sup> feeling so down - because of the mass ~~mis~~ misunderstanding  
and the <sup>very</sup> next next future.

How why the pain stop when I am eating?

otherwise I would be dead already and their parricide  
of the criminals ~~sparking~~ doctors wants a psychopate  
makes a monstrous thing -

I would send you some words until I can. If you don't  
mind please.

I thank you  
now they attack my neck in front now.

With all my thanks wish you a good following.

When I said my husband fuck nothing leave.

I wanted to say he does not take anything since on my long time ago  
is it is not going to phone to get something.
