BRESIL -

Collected Col.

my husband have to be operated of a little bowl in the neck. He made the scanner 10 days ago. And yesterday He had to get the result and made an operation date for the operation. But nobody could get the results in the hospital. So I think it's the showbiz movie does not want he is operating here but probably in USA.

I thought of that. Because it's a ~~to~~ too strange coincidence situation. The Festival of Cannes is going to end and they have managed to take him away soon.

It's awful. And I have not the strongest will to sleep the doctor give this herbata... only in very bad case and with a special paper - so they give that not very often.

I told you in the last letter I am sure they put me me like a robot robot they have ~~done~~ already did it.

So my end is soon. "The butchery". And All the scientific want to go to Mars and doctors scientific or government don't believe me. The Butchery would be done by a killer paid for that. There are not murdo so awful that only is criminal organization and Dictature.

I am going to Paris so I prefer to send the letter from there. It can be forensic about we never know.

I don't know if I would be alive when you receive this letter. My husband thinks they lost the results.

the way to make to: But I repeat it's a strange coincidence.
I was worried because on the way to hospital they could
take him away or the organization could make me
a fool of me announce or - or and take me away to kill
me. But seeing the end of the festival it's more than
we have taken the risk to stop the operation because
it would be too late for them to take him away -
not knowing the date of the operation - they could have gone
and they must have managed all that -

Thanks to read me again - I am so hungry of what happened
Sunday when I was out of the house and return on myself
to come back to the house - I hope nothing happen to
day as I am going to Paris by car with my husband -

Yvonne -
